Earn Academic Credit for Participating in the NSNA Leadership University

The NSNA Leadership U provides opportunities for nursing students to be recognized for the leadership and management skills they develop through participation in NSNA's programs and activities.

From the school chapter level to the state and national levels, nursing students learn how to work in cooperative relationships with peers, faculty, students in other disciplines, community service organizations, and the public in a service learning environment.

The Leadership U is open to all nursing programs preparing students for RN licensure that are official NSNA constituents and to those schools working toward constituency status.

The purposes of the NSNA Leadership U are to:

- Link service-learning activities to professional values development and socialization in the nursing profession
- Develop competencies that future leaders and managers need to successfully provide for the health care needs of society
 - Validate that learning has taken place
- Provide formal recognition to NSNA members who demonstrate leadership and management skill development
 - Assist students to develop a professional portfolio
 - Create opportunities for mentor-protégé relationships and peer networks to grow

- New Feature - Critical Portfolio™

Decision Critical, Inc. is pleased to work with NSNA to build and maintain an electronic, web-based professional portfolio using Critical Portfolio.™ Free access to NSNA members.
